

During the summer we will on occasion watch a movie. Because of our shorter day we do not have them planned in the schedule. However, with summer weather and children sometimes needing a cool down we wanted to be prepared. Movies are G, TV Y, and PG rated. Most children's movies coming out these days are rated PG.

We are very selective when watching movies. There are several movies we don't watch due to inappropriate language, subject matter or crude humor.

Please read through our listed movies, and cross out any movie that you do not want your child watching. Almost all of the movies below can currently be found on Netflix, many are Netflix Originals

Sign and return sheet.
